

ETHAN DONOVAN

Senior Full Stack Developer | PHP, Laravel & Angular Expert

07494 026444 | ethandonovan111@hotmail.com
76 Greyson Way, Cwmbran, NP44 3GD | [LinkedIn](#) | [GitHub](#)

Dedicated and adaptable **Full Stack Developer** with proven experience delivering efficient, scalable solutions across diverse projects. **Skilled in Angular, Laravel, React Native, Docker, and CI/CD pipelines**, with a strong focus on optimizing system performance and reliability. Quick learner and collaborative team player, committed to continuous growth and applying best practices to solve complex challenges. Motivated by **building robust applications that drive business value and improve user experience**.

INFRASTRUCTURE PROJECTS

github.com/SoberBluee/homelab

- **Homelab platform (Proxmox):** Designed and operate a segmented home lab with VLAN-isolated workloads, Docker services, and a highly available Kubernetes cluster (3 control plane / 2 worker nodes) behind firewall and VPN access.
- **Kubernetes workloads:** Deployed and maintain production-style manifests for self-hosted apps (e.g. Nextcloud, Joplin) including ingress, persistent storage, Redis, and database services.
- **Infrastructure as Code:** Provision and manage Proxmox VMs with Terraform, validating connectivity, VM lifecycle, and repeatable environment setup.
- **CI/CD & automation:** Built deployment pipelines using GitHub webhooks and Bash scripting to reduce manual releases and improve deployment consistency.
- **Network documentation:** Modelled topology and service dependencies with Python-based architecture diagrams for planning, troubleshooting, and onboarding.

FREELANCING

github.com/SoberBluee/project-x-web

*Delivered in personal time—before work, at lunch, and after work—on an **equity-only** basis with no cash compensation.*

Project X — AI-assisted SaaS platform for UK entrepreneurs (Angular, Laravel, Stripe)

- Built and shipped a full-stack product from onboarding questionnaire through authenticated dashboard, including **Sanctum auth**, membership tiers, and **Stripe** billing with token-based usage for AI features.
- Implemented **AI-generated business and marketing plans** with multi-step wizards, multiple PDF templates, signed download links, and email notifications when plans are ready.
- Developed **competitor analysis** using queued background jobs, structured report storage, and async delivery—enabling long-running OpenAI workloads without blocking the UI.
- Delivered **invoicing and client management**, plus **social media post generation**, extending the platform beyond plan-building into day-to-day business operations.
- Published HMRC and business-structure guidance flows, company-name checks, and supporting content to help founders navigate early-stage compliance and planning.
- Deployed and maintained **production and staging environments** for the Angular frontend and Laravel API, with rate limiting, PHPUnit coverage, and environment-specific build

pipelines.

SKILLS

- **Languages:** Python, Java, C#, JavaScript, PHP, Bash
- **Frameworks:** Angular, React Native, Laravel, Vue.JS
- **Platforms & Tools:** Node.js, Expo, Docker, GitLab CI/CD, DigitalOcean, Kubernetes, Proxmox

CERTIFICATIONS

Introduction to Containers w/ Docker, Kubernetes & OpenShift

- Credential ID: 24B5ZOEHI1A
- Credential URL: <https://www.coursera.org/account/accomplishments/verify/24B5ZOEHI1A>

Systems Design & Architecture Course - University of Alberta

- Please view my linkedin Profile for proof of completion

Data Structures and Algorithms: Deep Dive Using Java, Udemy - May 2020 - May 2020

- Credential ID: UC-68fd895b-49c9-4eb4-8d73-291264c5bb85
- Credential URL: <http://ude.my/UC-68fd895b-49c9-4eb4-8d73-291264c5bb85>

Machine Learning With Python, IBM - Jun 2020 - Jul 2020

- Credential ID: B6FMKH4KKKNR
- Credential URL: <http://coursera.org/verify/B6FMKH4KKKNR>

PROFFESIONAL EXPERIENCES

- **Senior Full Stack Engineer** **August 2025 – Present**
Cooper Rose Digital — Remote, Wales
 - Lead project delivery, defect resolution, and new feature development across **4 concurrent client engagements**, balancing priorities and keeping releases on track.
 - Built and maintain a **multi-tenant codebase**, separating client data and configuration while sharing core platform logic to scale delivery without one repo per client.
 - Deliver new **insurtech products** and contribute to a **fully modular platform** that enables clients to self-configure and launch insurance products from initial requirements to go-live in **weeks**.
 - Act as the **primary technical lead** following a team transition, restoring delivery capacity and driving a measurable improvement in **productivity and profitability**.
 - Own **client relationships** day to day—scoping work, setting expectations, and aligning technical delivery with business goals.
 - Implemented **CI/CD pipelines** using **GitHub webhooks and Bash**, automating deployments and reducing manual release overhead.
- **Full Stack Engineer** **May 2022 – August 2025**
Bluefuse — Bath, England
 - Contributed to tax management tools (e.g., pooled payments, API integrations) in agile teams of 2–6 developers.
 - Built and maintained 5+ full-stack apps with Angular, Laravel, React Native (MySQL/PostgreSQL), optimizing ag-grid tables for 2M+ rows via indexed joins, CTEs, and subqueries.
 - Deployed and managed multi-env Linux servers on DigitalOcean/Kinsta; automated deployments via GitLab CI/CD.

- Migrated Endsleigh CMS from Prismic to Strapi, moving 10,000+ documents/assets/blogs with custom scripts.
- Refactored React Native app and Laravel backend (Howden project), reduced crashes and optimized performance.

○ **Web Development Trainee**

June 2018 – July 2018

Educasoft — Prague

- Completed AngularJS-focused internship by building e-commerce shop with basket system.
- Demonstrated strong collaboration, problem-solving, and self-guided learning.

ACADEMIC BACKGROUND

University of the West of England, Bristol - Sept 2019 – May 2022

- Bachelor of Computer Science (First Class Honours)
- Selected coursework: Artificial Intelligence, Data Structures & Algorithms, Object-Oriented Programming, Cryptography, Ethical & Professional Issues in Computing, Advanced Web Development

South Gloucestershire and Stroud College, Bristol - Sept 2016 – Mar 2018

- BTEC ICT Level 3 Diploma (90 Credits) – DDD*

AWARDS

- Awarded **two certificates by the University of the West of England's Pro-Vice Chancellor & Executive Dean** for consistent high performance across all modules.
